We are presently interviewing the Kinder 2014 children, our next generation Bethany students. They will be in Year 6 in 2020 and leave secondary school at the end of 2026. Wow! What would our world look like then? Imagine if you can the technology they will be using. It has not been invented yet. What will WORK look like? Or leisure and entertainment?

All the present K-6 Bethany children have been born this century. Education continually strives to meet the ever changing demands of society and educating students for a world that is rapidly changing. Their skills, knowledge, values, attitudes etc. are all being formed now in their time at Bethany.
